

Research Associate

JOB TYPE: Full-time

LOCATION: Bangalore

TEAM: Research

SALARY: Competitive as per market rates (depending on qualification & experience)

WHO WE ARE

Noora Health's mission is to improve outcomes and strengthen health systems by equipping family caregivers with the skills they need to care for their loved ones. Founded in 2014, Noora Health turns hospital hallways and waiting rooms into classrooms by tapping into the most compassionate resources available for the patient's care: their own family.

With the support of six state governments in India, the Government of Bangladesh, and large private hospital systems, Noora Health has trained more than two million caregivers across 329 facilities. In a cohort of patients, the program reduced post-surgical cardiac complications by 71%, maternal complications by 12%, newborn complications by 16%, and newborn readmissions by 56%.

Noora Health was honored as a [TED 2022 Audacious Project Grantee](#) and recipient of the [2022 Skoll Foundation Award for Social Innovation](#). Featuring Edith Elliott and Shahed Alam, our Co-Founders and Co-CEOs, Noora Health's mission took the spotlight at [TED 2022](#) and was also featured in a [2022 Skoll video](#).

WHAT YOU WILL DO

- Identify and fill internal information gaps along with other impact team members using right-fit evaluation and data collection strategies
- Support data quality-collection processes for both qualitative and quantitative data collection
- Conduct literature reviews on relevant health topics as it relates to current or upcoming research projects
- Conduct data collection trainings for quantitative and qualitative data collection for other Noora Health staff
- Conduct field work to monitor ongoing data collection efforts and ensure quality data is collected for ongoing evaluation activities
- Work closely with the design, implementation, and research team to roll out data collection and implementation of research activities to make our programs better
- Manage evaluation of projects from beginning to end.

WHAT WE ARE LOOKING FOR

We seek someone who can support project management across evaluation projects and support on various research tasks.

- Bachelor's degree in health-related fields, social sciences, statistics or other relevant fields
- Experience in working with any reputed public health organization
- This role is aimed at professional who are strongly motivated to solve important global health challenges and is dedicated to the social and development sector and health equity
- Experience of at least 1-3 years in research roles, which includes but are not limited to data cleaning and data analysis
- Excellent documentation and report writing skills in English
- Good communication skills
- Being multilingual is a must. Proficiency in Hindi and/or any other Indian language spoken in the subcontinent is required
- Outstanding communication skills and ability to work seamlessly as part of a diverse team including designers, analysts, and educators from India and overseas

WHAT WE VALUE

At Noora Health, we value diversity, equity, and inclusion, and we understand the value of developing a team with different perspectives, educational backgrounds, and life experiences. We prioritize diversity within our team, and we welcome candidates from all gender identities, castes, religious practices, sexual orientations, and abilities – among many others. Professionals with field level experience of public health management are encouraged to apply.

HOW TO APPLY
